QuickLaunch Password Manager focuses in protecting users' password. Our password manager defense users from phishing attacks and adds security using multi-factor authentication.

Adaptive Authentication

QuickLaunch Adaptive Authentication uses a broad set of modern factors, leverages insight from millions of users, devices, authentications, and integrates easily with applications and network infrastructure.

User Self-Registration

QuickLaunch helps enterprises in onboarding first-time users through self-registration from the Single Sign-On portal.

Shield

QuickLaunch Shield is a Web Application Firewall (WAF) that takes care of your account security by safeguarding you against attacks such as DDoS, and Brute force.

CUSTOMERS SPEAK

Patrick Brown

Chief Information Officer, Illinois College

We've had a really good experience with QuickLaunch SSO. They've been very attentive to our needs. We rolled out our SSO portal in January, and we are currently in the process of implementing their password reset product as well. I would definitely recommend them.

Hartwell Bentley

Data Analyst, Calhoun Community College

QuickLaunch Team has kept all their promises with a turn-around time and price being 1/4th in comparison to what we were spending with the Professional Services before. In all areas, QuickLaunch has demonstrated expertise and quick action.

ABOUT QUICKLAUNCH

QuickLaunch is the only AI and blockchain based identity-as-a-service platform (IDaaS) that transforms how cloud-savvy institutions and companies manage human and device authentication, authorization and access control. QuickLaunch leverages AI to autodetect threats and step up authentication and leverages blockchain ledger to protect identities and maintain historical access control changes for automatic compliance management. More than 100 institutions and companies such as Jenzabar, Unified, OculusIT, New Mexico State University, Colorado Community College System, BlackBeltHelp trust QuickLaunch to protect and manage over 2,000,000 identities and access to over 3,000 applications such as Salesforce, Adobe Creative Cloud, Box, Canvas, Blackboard, G Suite and Office 365.
